Helping children thrive with routines

Does your child struggle to complete everyday activities like getting ready for bed, shifting from playtime to another activity, or leaving the house? Do you want to create an environment that helps them build new skills and grow their independence?

If so, join this session to learn:

- why routines are good for your child and the whole family
- how to create routines
- ideas to handle common challenges

We will be joining AHS to offer this webinar intended for parents and caregivers who have children 1 to 10 years old. It's also suitable for parents and caregivers of children with developmental delays and autistic or neurodivergent children. Snacks will be provided.

AGES AND STAGES DEVELOPMENTAL CHECK IN

Online

Have you ever wondered about your child's development? The Ages and Stages Questionnaire provides a fast and helpful look at how your child is doing in important areas like communication, social skills, motor skills and problem solving skills. Screening can identify your child's strengths, uncover new milestones to celebrate and reveal any areas where your child may need support. It helps you understand your child's development and know what to look for next.

The ASQ and ASQ:SE questionnaires are designed to help you monitor your child's development at regular intervals from 2 months to 5 years of age. To access these questionnaires, go to our website below.

www.leduc-county.com/en/living-here/early-learning-and-care.aspx

For more information, please call 780-979-2385 or email frn@leduc-county.com.
